THIRTEENTH YEAR. NO. 30.

EAST LIVERPOOL, OHIO, FRIDAY, SEPTEMBER 10, 1897.

TWO CENTS

## MINERS NOT AGREED.

The Convention Resumed This Morning at Columbus.

### RATCHFORD SEEMS CONFIDENT.

He Expects Acceptance of the Pittsburg Offer—Some Delegates Ask to Be Relieved of Instructions, So They Can Vote to Accept—Others Opposed.

COLUMBUS, Sept. 10.—The miners' convention assembled again this morning. No vote having been taken yesterday on the proposed settlement.

President Ratchford said to a newspaper representative: "You may predict with every degree of certainty that a settlement will be reached and that the action of the national board in recommending a settlement will be endorsed. The delegates are beginning to see that the best thing they can do is to accept the proposition of the operators and return to work at the price offered. While the convention should have finished its business yesterday it was impossible to do so. Nearly every delegate desired to say something regarding conditions in his own locality and the convention had to permit them to have their say. When they have finished the convention can get to work."

The arguments that have been presented by the officials and members of the executive board in favor of a settlement have had great weight with the delegates who have come to the convention uninstructed, and even some of those who came with instructions have gone so far as to communicate with their constituents, asking to be relieved of instructions, that they may be free to vote as they deem best. Should this drift of sentiment continue until a vote is taken, the proposition for a settlement will undoubtedly be accepted.

The question as to whether a settlement on the lines proposed can be made general appears to be the stumbling block at this time. If the delegates from Illinois, Indiana, West Virginia and portions of Ohio were assured that the settlement would be beneficial to them as well as to the miners of the Pittsburg district, they would not hesitate to vote for a settlement. The Illinois miners have not changed their position and positively decline to accept the terms of settlement proposed by the national board.

The officials have partially met the argument of the Illinois miners by saying that if the Illinois delegates will agree to a settlement so that the miners of other states can resume work, the Illinois operators will be forced to pay the price by their competitors in other states. Should Illinois agree to this arrangement, Indiana and West Virginia will fall into line without hesitation.

The committee on resolutions is about equally divided on the question of a settlement and will probably present two reports to the convention. There were some fiery speeches in the executive session of the convention by delegates from Ohio, Illinois and West Virginia. Secretary T. L. Lewis of the Ohio miners said that no matter what action the convention took it would not settle the strike, and Organizer Ray, who has been at work in West Virginia, charged that the conditions in that state were due largely to it being overrun by non-union miners from Ohio and the Pittsburg district. He said if these two districts had been organized properly there would have been no trouble in bringing the West Virginia miners into line.

A proposition to admit additional delegates from Pennsylvania caused a stormy discussion. The Illinois delegates objected on the ground that if one state was allowed this privilege it should be accorded to all. The matter was of material importance, as to admit new delegates might change the vote, and the opposition was so strong that the motion to admit the additional Pennsylvania delegates was voted down.

### SCARED THE DEPUTIES.

A Woman Threatened Them With an Ax While Evicting Strikers.

PITTSBURG, Sept. 10.—The promised eviction of the tenants at Plum Creek took place yesterday afternoon. Superintendant Samuel DeArmit, accompanied by 12 deputies, moved goods out of several houses, but the strikers put them back. One woman chopped a fence down.

Three deputies tried to take the ax from her, when she told them to stand back or she would brain them with one sweep. The deputies kept away and she finished the fence.

### Drove Men From Work.

HAZELTON, Pa., Sept. 10.—The striking miners marched to Beaver Meadow colliery, and before they had been dispersed by the deputies they drove all the employees from the mine. It is said that nearly 8,000 are on strike.

### THE SONS OF VETERANS.

Opening of the Sixteenth Annual Encampment at Indianapolis.

INDIANAPOLIS, Sept. 10.—The sixteenth annual encampment of the Sons of Veterans, U. S. A., the first session opening in the hall of representatives, was called to order by President J. L.

Rake. Five hundred delegates were present. President Rake delivered his annual address, after which Charles Bookwalter extended the welcome of the state to the visitors. The session was occupied by the reading of annual reports and other routine matter. It is the largest encampment in the history of the organization.

Sixty-five delegates, representing the Ladies' Aid society, auxiliary to the Sons of Veterans, met in the senate chamber. They were welcomed by the division commander of Indiana, Miss Anna Sims, and on behalf of the city by Miss Ada Wallace. Miss Kate G. Raynor of Toledo, national president, responded to these greetings, and after the minutes of the last encampment had been approved the annual reports were filed.

### THE PANAMA CANAL.

Report of a Concession to England Not Believed.

WASHINGTON, Sept. 10.—The attention of Senor Julio Rengifo, the representative of the republic of Colombia, was called to reports that Colombia had granted a concession to England to complete the Panama canal, thus transferring that mammoth enterprise from French to English hands. Senor Rengifo said he did not believe it.

Only a few weeks ago Director General Hutin of the Panama Canal company was in Washington and paid his respects to General Rengifo before returning to Paris. The call was unofficial and one of courtesy, but General Hutin spoke with the greatest satisfaction of the work being done by the French company, and gave no intimation that any transfer to English hands much less to the English government was contemplated. All his conversation indicated full confidence in the successful completion of the project on its present lines. Since then General Hutin has gone to Paris, and other officials of the French company have gone to Colon to carry on the work.

It appears that the original concession from Colombia was a private French company, great care being taken that no special privileges should be given to any particular country, as that would be manifestly a violation of the Monroe doctrine, which the United States would not tolerate. Under these circumstances no concession could be granted to a foreign government, either by Colombia or by the French company, as the latter is expressly prohibited from granting advantages to any particular nation.

Secretary Sherman stated that, while he had no official information on the subject, he was convinced that there was no truth in the report that Great Britain had undertaken to complete the Panama canal.

### TARIFF SECTION NO. 22.

Members of Congress Say They Were Ignorant of the Amendment.

BOSTON, Sept. 10.—The Herald prints letters from 10 members of the Fifty-fifth congress representing almost as many states in reply to a circular sent out to secure the facts in regard to the passage of the famous section 22 of the Dingley tariff bill.

With one exception the writers professed ignorance of the amendment to section 22. Congressman Cobbing of Pennsylvania says the change was called to his attention, and he believed then and believes now that it is all right, and that there was no trick of misunderstanding in the matter.

Congressman Lacey of Iowa says he examined the amended section and wondered if it was so skillfully drawn as to avoid existing treaties, as he supposed the treaties would have to be annulled to make it operative.

Senator Frye of Maine says he does not believe that, as adopted, it repealed section 4,228 of the revised statutes, under which the president has extraordinary powers touching reciprocal rights, and that neither the conference committee nor congress intended to provide by this law an invidious distinction as to the commercial relations of our country with others.

The other replies contain various references to the manner in which the bill was passed, some complaining that it was "rushed through," others that it was "smuggled in" and denying knowledge of the clause in question.

### THEY ARE BAD PEARLS.

St. Louis Jewelers Pronounce the Arkansas Gem Valueless.

ST. LOUIS, Sept. 10.—The excitement in Arkansas and some points of Missouri, Kansas and Tennessee over the pearl fisheries has been intense. Reports received from those districts show that all other lines of industry have practically been abandoned. Men, women and children have searched rivers and ponds from morning till night in the delusion that the bits of gravel taken from the mussel shells were pearls of great price. They may have been of pearl formation, but as for their having any great value, it is a mistake.

Occasionally a really good "button" was found that had a market value of from \$5 to \$150. It is known, moreover, that 11 perfect pearls have been found, but they all came from one town in Kansas. Many packages arrive at the leading jewelry houses daily. They are inspected, resealed and sent back with a polite note to the effect that the offering is worthless.

### The Weather.

Generally fair; continued high temperature; light to fresh southerly winds.

## SOME YELLOW FEVER.

Guiteras Finds Fever Cases Among Many of Dengue.

### OTHERS CONSIDERED SUSPICIOUS.

New Orleans Doctors Think Some of the Cases There Very Much Like Yellow Jack—Known Cases at Ocean Springs. Rigid Quarantine Being Established.

WASHINGTON, Sept. 10.—Dr. John Guiteras, the yellow fever expert, has telegraphed to Surgeon General Wyman as follows from Ocean Springs, Miss.:

"Of three suspicious cases reported by me yesterday, one confirms yellow fever by autopsy, another by subsequent course; the third case is not yellow fever. Today I have diagnosed another case of yellow fever. We have, then, two cases in a sick list of 40. There have been here a few cases of yellow fever in the midst of a widespread epidemic of dengue."

Assistant Surgeon Norman, at New Orleans, telegraphed as follows:

"By courtesy of President Oliphant I send the following announcement, signed by Drs. Lemonnier, Courarte, Pettit and Parham and addressed to the president and members of the Louisiana board of health:

"GENTLEMEN—We, the physicians who have been requested to examine into the nature of the cases of fever on St. Claude street, would respectfully report that in their collective aspects they should be regarded as suspicious and should be taken charge of by the board of health."

"Guiteras has been invited to visit New Orleans."

The detention camp equipment shipped from Waynesville, Ga., has arrived in the vicinity of Ocean Springs, and Surgeon Murray has been instructed by Dr. Wyman to select a site. Its location has not yet been definitely determined, the surgeon general having under consideration a place recommended by Dr. Murray. Passed Assistant Surgeon White has left here to take charge of the camp.

Dr. Wyman has taken measures to strengthen the border line inspection service already inaugurated by the states of Alabama and Louisiana to prevent the spread of the disease.

Passed Assistant Surgeon Glennan has been ordered to Grand Bay, where the Louisville and Nashville crosses into Alabama, to assist the officer already designated by that state. An official probably will soon be sent to the point where the same railroad crosses the Mississippi-Louisiana state line. Measures have also been taken by the surgeon general to ascertain the correctness of the reports that yellow fever has developed at other points in Mississippi, notably at Perkinton, and at Scranton, where Dr. Sullivan is said to have reported two suspicious cases to the president of the Louisiana state board of health. Surgeon Carter will go to the latter place and Surgeon Murray is expected to follow him, leaving Dr. Wasdin temporarily in charge at Ocean Springs. If the reports of the existence of fever at those places are found correct, stringent measures will promptly be adopted to prevent its spread.

### A POSTAL CARD PLANT.

Manufacturer at Piedmont, W. Va., May Get Government Contract.

WASHINGTON, Sept. 10.—Third Assistant Postmaster General Merritt went to Piedmont, W. Va., to investigate the facilities of the West Virginia Paper company for supplying the postal cards required for the next four years. This mill has been designated by Mr. Albert Daggett, who was the lowest bidder for the contract, as the one at which he will have the cards manufactured in case the contract is awarded to him.

Mr. Merritt said before starting that if he found the conditions at the mill satisfactory he had no doubt that Mr. Daggett's bid would be accepted. The terms of the contract call for about 700,000,000 cards a year at an aggregate annual cost to the government of about \$165,000.

### Amounts Paid For Pensions.

WASHINGTON, Sept. 10.—The annual report of the auditor for the interior department shows that the amount paid for pensions during the last year was \$140,477,637. The payments on pension account for the fiscal year 1896 was \$138,722,127, and for the fiscal year of 1895, \$140,558,641; 1894, \$137,119,551, and for 1893, \$154,552,214. The cost of the service last year was \$3.99 per \$1,000; for 1896, \$4.07; for 1895, \$4; for 1894, \$3.77, and for 1893, \$3.35.

### Insurgents Near Uruguay's Capital.

LONDON, Sept. 10.—The Times correspondent in Buenos Ayres says the Uruguayan rebels are within a two days' march of Montevideo. If they made a determined attack, the correspondent says, the capture of the capital would be possible, as the garrison is weak and a large number of the inhabitants sympathize with the revolutionists.

### Earthquake Epidemic at Guadalupe.

WASHINGTON, Sept. 10.—Consul Dart, at Guadalupe, in the West Indies, re-

ports to the state department that continuous shocks of earthquake are being experienced there. It is said to be a strange phenomenon affecting no other part of the island.

### HEARD EXPERT TESTIMONY.

Two Witnesses Testified in the Trial of Luetgert.

CHICAGO, Sept. 10.—Both sessions of the court in the trial of Adolph L. Luetgert were consumed in the taking of expert testimony. Through chemical analysis the state must establish not only the possibility of a human body being dissolved by the action of caustic potash heated to the boiling point, but also the fact that the bits of bone, hair and flesh and the scrapings of pinkish-brown material from the interior of the vat in the sausage factory are portions of the body of a human being.

If they can demonstrate these two propositions beyond a reasonable doubt one of the most important portions of their case will have been accomplished. By circumstantial evidence they have endeavored to prove that Luetgert was anxious to rid himself of his wife, and that he enticed his wife to his factory on the evening of May 1. By expert testimony they expect to prove that Mrs. Luetgert's remains are now represented by the bits of bone, flesh and hair.

Two expert witnesses have been called, Dr. Charles B. Gibson and Prof. Mark Delafontaine. Dr. Gibson, whose direct examination was begun Wednesday, offered further testimony for the state and was turned over to the defense for cross-examination.

The prosecution could not draw from Prof. Delafontaine the assertion that the bits of flesh were human flesh. They might be human, but they might also be the flesh of an animal. The bones he was sure were human bones.

### A FINANCIAL PANIC.

Many Failures in Guatemala and Revolution Threatened.

SAN FRANCISCO, Sept. 10.—News just received from Guatemala is to the effect that the country is in a bad way financially and politically. During the last month six failures were reported. The total is nearly \$8,000,000 in Central American money, which is very much depreciated in value.

Reina Barrios, the man who was president and who declared himself dictator of the republic a couple of months ago, is excessively unpopular, because of his recent high-handed action and his cruelties. There is a demand that Prosper Morales, a lawyer and former minister of war, be chosen to succeed Barrios.

To prevent this Barrios intends calling a session of the assembly very soon in order to have himself confirmed as dictator. If he is successful war is almost certain, because the country will not longer submit to his oppression. If he is defeated war is just as sure, because he cannot afford to be driven out of office.

### IRELAND'S POTATO CROP DOOMED.

A Famine Threatened in the Isle Across the Sea.

LONDON, Sept. 10.—Lamentable reports continue to pour into Ireland of the havoc already wrought among the crops, and as the weather is still most unpropitious all hope of saving the remnant of the harvest is fast fading away.

The English press is beginning to now realize the situation, though it is maintaining its gravity.

The St. James Gazette says: "The potato has failed everywhere, and there is something to excite the alarming language of those who are beginning to talk about a great famine, but distress on that scale is no more likely than another invasion by barbarians. Yet there will be a measure of suffering in Ireland, real if less terrible than that which the professional agitator is beginning to predict."

The "professional agitator" has made no prediction in the present instance. The cry has come from the people all over the country. English tourists are writing to the press describing the ruined harvest they have everywhere seen.

### RUNAWAYS ARRESTED.

Three Philadelphia Youngsters' Camp Rudely Broken Up.

WILMINGTON, Del., Sept. 10.—Detective McVey spoiled the boyish dreams of Harry Sharpley, Paul May and Philip Goodman, three 12-year-old Philadelphia youngsters who were camped at Millsboro, Sussex county.

They ran away from home on Monday, taking all their clothes and spending money. The trio purchased two rifles and a shotgun. A tent was made out of an old bed tick and under it they slept. They had plenty of provisions.

When asked how they expected to live this winter they said they would hunt and shoot for a living. The boys were sent to their homes at Twentieth and Columbia avenue, Philadelphia.

### Said He Would Kill Himself.

SOUTH BEND, Ind., Sept. 10.—L. S. Hutchens, a druggist, has disappeared, leaving a letter announcing his intention to kill himself and evidence of defalcation from the United States Express company, for which he was sub-agent.

## DEXTER FOR GOVERNOR

Ticket Named by Gold Democrats at Columbus.

### OUTTHWAITE ENDORSED FOR SENATE

The Platform Reaffirms the Indianapolis Platform—Declares For Maintenance of Gold Standard and Denounces the Recent Tariff Legislation.

COLUMBUS, Sept. 10.—The state convention of the National Democrats was not as large as expected, the attendance of delegates being limited to probably 50. The following state ticket was nominated:

For governor, Julius Dexter, Cincinnati; lieutenant governor, Judge A. E. Merrill, Sandusky; judge of the supreme court, Judge John H. Clarke, Youngstown; attorney general, Daniel Wilson, Cincinnati; state treasurer, Samuel Stevens, Columbus; state commissioner of schools, Prof. W. H. Johnson, Granville; for member of state board of public works, Henry D. Coffinberry, Cleveland.

Next to the nomination of a state ticket the most important action of the convention was in endorsing a candidate for United States senate. The proposition originated with the Franklin county delegates, and Hon. Joseph H. Outwaite of this city was unanimously endorsed.

Judge Beerman of Bucyrus was made chairman and after a short introductory address, introduced Hon. W. D. Bynum of Indiana, who spoke about two hours on the money question. Letters were read from Hon. John G. Carlisle and Hon. Henry Watterson.

Following is the platform: "We, the representatives of the National Democratic party of Ohio, in state convention assembled, reaffirm allegiance to the principles of the party as set forth in the platform adopted at Indianapolis in 1896. Criticism and attack of that platform have vindicated its strength and wisdom.

"We declare for the maintenance of the gold standard, for the retirement of the greenback and for the extension of the civil service merit system wherever possible in the nation and in this state.

"We demand retrenchment of expenses and scope of government so that there be left the utmost freedom of individual effort consistent with safety and peace.

"We denounce the recent tariff legislation as encouragement of extravagance and refringement of private rights, an unfair tax on all for the benefit of some of the people and an arbitrary interference by legislation with the natural laws of trade.

"We denounce in the Dingley bill the heavier duties on lumber, wool and hides, as increasing the cost of clothing and shelter to the people.

"We condemn the proposed annexation of the Hawaiian Islands as introducing into our Union a large Asiatic and tropical population, utterly unfitted for American citizenship; as the beginning of a policy of territorial expansion certain to entail upon our country large taxation to sustain strong armies and navies in distant islands and on distant seas; and as constituting a menace to peaceful industry by exposing our country to foreign wars.

"We disapprove the hostile action of the Republican party of Ohio in its attack on civil service reform, and we express our thanks to President McKinley for his support and extension of the merit system."

The matter of legislative tickets was referred to the counties.

### OLD SOLDIERS ELECT OFFICERS.

Business Meeting of the Army of West Virginia at Columbus.

COLUMBUS, Sept. 10.—At the business meeting of the Army of West Virginia the election of officers resulted as follows: President, W. H. Powell, Belleville, Ill.; secretary treasurer, P. F. Zeize, Middleport, O.; assistant secretary, C. J. Roberts, Wheeling; vice presidents, J. H. Duval, Wellsburg, W. Va.; Van H. Buckley, Parkersburg, W. Va.; B. M. Skinner, Pomeroy, O.; J. L. Vance, Gallipolis, O.; G. J. Walker, Jackson, O. H. W. Va.; O. B. Warwick, Lucasville, O.; R. L. Curtis, Marietta, O.; J. C. Bishop, Columbus; J. L. Bottsford, Youngstown, O.; W. L. Wilson, Athens, O.; E. S. Wilson, Ironton, O.; T. H. McKee, Washington; Captain J. M. Burns, U. S. A., Columbus; Thayer Melvin, Wheeling.

### Window Glass Workers Split.

PITTSBURG, Sept. 17.—Internal troubles of the Window Glass Workers' association culminated in a split. The flatteners and cutters, comprising one-fourth of a membership of 5,000, withdrew, each forming a separate association. The two new organizations will demand a receiver for L. A. 300, whose treasury contains \$250,000. President Burns of L. A. 300 says the demand will be contested.

### Gage Likes the Commission.

WASHINGTON, Sept. 10.—Secretary Gage said that the commission appointed by Chairman Hanna of the Indianapolis convention was a splendid one, and he hoped would accomplish something in its attempt to bring about a revision of the currency laws.

Mr. Merritt said before starting that if he found the conditions at the mill satisfactory he had no doubt that Mr. Daggett's bid would be accepted. The terms of the contract call for about 700,000,000 cards a year at an aggregate annual cost to the government of about \$165,000.

### Amounts Paid For Pensions.

WASHINGTON, Sept. 10.—The annual report of the auditor for the interior department shows that the amount paid for pensions during the last year was \$140,477,637. The payments on pension account for the fiscal year 1896 was \$138,722,127, and for the fiscal year of 1895, \$140,558,641; 1894, \$137,119,551, and for 1893, \$154,552,214. The cost of the service last year was \$3.99 per \$1,000; for 1896, \$4.07; for 1895, \$4; for 1894, \$3.77, and for 1893, \$3.35.

### Insurgents Near Uruguay's Capital.

LONDON, Sept. 10.—The Times correspondent in Buenos Ayres says the Uruguayan rebels are within a two days' march of Montevideo. If they made a determined attack, the correspondent says, the capture of the capital would be possible, as the garrison is weak and a large number of the inhabitants sympathize with the revolutionists.

### Earthquake Epidemic at Guadaloupe.

WASHINGTON, Sept. 10.—Consul Dart, at Guadaloupe, in the West Indies, re-

ports to the state department that continuous shocks of earthquake are being experienced there. It is said to be a strange phenomenon affecting no other part of the island.

### HEARD EXPERT TESTIMONY.

Two Witnesses Testified in the Trial of Luetgert.

CHICAGO, Sept. 10.—Both sessions of the court in the trial of Adolph L. Luetgert were consumed in the taking of expert testimony. Through chemical analysis the state must establish not only the possibility of a human body being dissolved by the action of caustic potash heated to the boiling point, but also the fact that the bits of bone, hair and flesh and the scrapings of pinkish-brown material from the interior of the vat in the sausage factory are portions of the body of a human being.

If they can demonstrate these two propositions beyond a reasonable doubt one of the most important portions of their case will have been accomplished. By circumstantial evidence they have endeavored to prove that Luetgert was anxious to rid himself of his wife, and that he enticed his wife to his factory on the evening of May 1. By expert testimony they expect to prove that Mrs. Luetgert's remains are now represented by the bits of bone, flesh and hair.

Two expert witnesses have been called, Dr. Charles B. Gibson and Prof. Mark Delafontaine. Dr. Gibson, whose direct examination was begun Wednesday, offered further testimony for the state and was turned over to the defense for cross-examination.

The prosecution could not draw from Prof. Delafontaine the assertion that the bits of flesh were human flesh. They might be human, but they might also be the flesh of an animal. The bones he was sure were human bones.

### A FINANCIAL PANIC.

Many Failures in Guatemala and Revolution Threatened.

SAN FRANCISCO, Sept. 10.—News just received from Guatemala is to the effect that the country is in a bad way financially and politically. During the last month six failures were reported. The total is nearly \$8,000,000 in Central American money, which is very much depreciated in value.

Reina Barrios, the man who was president and who declared himself dictator of the republic a couple of months ago, is excessively unpopular, because of his recent high-handed action and his cruelties. There is a demand that Prosper Morales, a lawyer and former minister of war, be chosen to succeed Barrios.

To prevent this Barrios intends calling a session of the assembly very soon in order to have himself confirmed as dictator. If he is successful war is almost certain, because the country will not longer submit to his oppressions. If he is defeated war is just as sure, because he cannot afford to be driven out of office.

### IRELAND'S POTATO CROP DOOMED.

A Famine Threatened in the Isle Across the Sea.

LONDON, Sept. 10.—Lamentable reports continue to pour into Ireland of the havoc already wrought among the crops, and as the weather is still most unpropitious all hope of saving the remnant of the harvest is fast fading away.

The English press is beginning to now realize the situation, though it is maintaining its gravity.

The St. James Gazette says: "The potato has failed everywhere, and there is something to excuse the alarming language of those who are beginning to talk about a great famine, but distress on that scale is no more likely than another invasion by barbarians. Yet there will be a measure of suffering in Ireland, real if less terrible than that which the professional agitator is beginning to predict."

The "professional agitator" has made no prediction in the present instance. The cry has come from the people all over the country. English tourists are writing to the press describing the ruined harvest they have everywhere seen.

### RUNAWAYS ARRESTED.

Three Philadelphia Youngsters' Camp Rudely Broken Up.

WILMINGTON, Del., Sept. 10.—Detective McVey spoiled the boyish dreams of Harry Sharpley, Paul May and Philip Goodman, three 12-year-old Philadelphia youngsters who were camped at Millsboro, Sussex county.

They ran away from home on Monday, taking all their clothes and spending money. The trio purchased two rifles and a shotgun. A tent was made out of an old bed tick and under it they slept. They had plenty of provisions.

When asked how they expected to live this winter they said they would hunt and shoot for a living. The boys were sent to their homes at Twentieth and Columbia avenue, Philadelphia.

### Said He Would Kill Himself.

SOUTH BEND, Ind., Sept. 10.—L. S. Hutchens, a druggist, has disappeared, leaving a letter announcing his intention to kill himself and evidence of defalcation from the United States Express company, for which he was sub-agent.

## DEXTER FOR GOVERNOR

Ticket Named by Gold Democrats at Columbus.

### OUTWHAITE ENDORSED FOR SENATE

The Platform Reaffirms the Indianapolis Platform—Declares For Maintenance of Gold Standard and Denounces the Recent Tariff Legislation.

COLUMBUS, Sept. 10.—The state convention of the National Democrats was not as large as expected, the attendance of delegates being limited to probably 50. The following state ticket was nominated:

For governor, Julius Dexter, Cincinnati; lieutenant governor, Judge A. E. Merrill, Sandusky; judge of the supreme court, Judge John H. Clarke, Youngstown; attorney general, Daniel Wilson, Cincinnati; state treasurer, Samuel Stevens, Columbus; state commissioner of schools, Prof. W. H. Johnson, Granville; for member of state board of public works, Henry D. Coffinberry, Cleveland.

Next to the nomination of a state ticket the most important action of the convention was in endorsing a candidate for United States senate. The proposition originated with the Franklin county delegates, and Hon. Joseph H. Outwhaite of this city was unanimously endorsed.

Judge Beerman of Bucyrus was made chairman and after a short introductory address, introduced Hon. W. D. Bynum of Indiana, who spoke about two hours on the money question. Letters were read from Hon. John G. Carlisle and Hon. Henry Watterson.

Following is the platform:

"We, the representatives of the National Democratic party of Ohio, in state convention assembled, reaffirm allegiance to the principles of the party as set forth in the platform adopted at Indianapolis in 1896. Criticism and attack of that platform have vindicated its strength and wisdom.

"We declare for the maintenance of the gold standard, for the retirement of the greenback and for the extension of the civil service merit system wherever possible in the nation and in this state.

"We demand retrenchment of expenses and scope of government so that there be left the utmost freedom of individual effort consistent with safety and peace.

"We denounce the recent tariff legislation as encouragement of extravagance and refringement of private rights, an unfair tax on all for the benefit of some of the people and an arbitrary interference by legislation with the natural laws of trade.

"We denounce in the Dingley bill the heavier duties on lumber, wool and hides, as increasing the cost of clothing and shelter to the people.

"We condemn the proposed annexation of the Hawaiian Islands as introducing into our Union a large Asiatic and tropical population, utterly unfitted for American citizenship; as the beginning of a policy of territorial expansion certain to entail upon our country large taxation to sustain strong armies and navies in distant islands and on distant seas; and as constituting a menace to peaceful industry by exposing our country to foreign wars.

"We disapprove the hostile action of the Republican party of Ohio in its attack on civil service reform, and we express our thanks to President McKinley for his support and extension of the merit system."

The matter of legislative tickets was referred to the counties.

### OLD SOLDIERS ELECT OFFICERS.

Business Meeting of the Army of West Virginia at Columbus.

COLUMBUS, Sept. 10.—At the business meeting of the Army of West Virginia the election of officers resulted as follows: President, W. H. Powell, Belleville, Ills.; secretary treasurer, P. F. Zeize, Middleport, O.; assistant secretary, C. J. Roberts, Wheeling; vice presidents, J. H. Duval, Wellsburg, W. Va.; Van H. Buckey, Parkersburg, W. Va.; B. M. Skinner, Pomeroy, O.; J. L. Vance, Gallipolis, O.; G. J. Walker, Jackson, O. H.; W. Va.; O. B. Warwick, Lucasville, O.; R. L. Curtis, Marietta, O.; J. C. Bishop, Columbus; J. L. Bottsford, Youngstown, O.; W. L. Wilson, Athens, O.; E. S. Wilson, Ironton, O.; T. H. McKee, Washington; Captain J. M. Burns, U. S. A., Columbus; Thayer Melvin, Wheeling.

### Window Glass Workers Split.

PITTSBURG, Sept. 17.—Internal troubles of the Window Glass Workers' association culminated in a split. The flatteners and cutters, comprising one-fourth of a membership of 5,000, withdrew, each forming a separate association. The two new organizations will demand a receiver for L. A. 300, whose treasury contains \$250,000. President Burns of L. A. 300 says the demand will be contested.

### Gage Likes the Commission.

WASHINGTON, Sept. 10.—Secretary Gage said that the commission appointed by Chairman Hanna of the Indianapolis convention was a splendid one, and he hoped would accomplish something in its attempt to bring about a revision of the currency laws.

## BONES IN PICTURES.

X RAYS DISCLOSE SKELETONS IN ORDINARY PHOTOGRAPHS.

Remarkable Discovery of a Baltimore Physician—Doctors May Now Diagnose Cases of Distant Patients—The Revelation Was Purely Accidental.

Dr. Robert Xavier Giering, a well known young physician of Baltimore, claims to have made a remarkable discovery by means of the Roentgen rays.

Dr. Giering states that by means of the X ray he can develop any ordinary photograph of a human being, showing plainly all the internal organs, and the bony structure of the body, of the original of the photograph. In other words, the doctor maintains that an ordinary photograph is not only a likeness of the outward appearance of the individual, but that it contains a reproduction of everything in the body, and that all that is necessary to make all visible to the naked eye is to put the photographs through a series of developments under the X ray. Dr. Giering was busily engaged in experimenting in his office when questioned on the subject of his discovery. He said he was developing photographs of various persons with the object of reproducing their internal organs.

In speaking of his investigations he said:

"Of course I cannot disclose the process which I employ, but I do not mind relating how I made the discovery. Six months ago I was employed as a lecturer by the Edison company of New York to give illustrated lectures on the Roentgen rays. I went to most of the southern and middle states in my work and have been constantly engaged in experimenting with the X rays.

"About two weeks ago I was testing a new apparatus in my office and made an X ray photograph of my hand. I placed a plate on the table directly under my apparatus. It was necessary in order to produce a clear picture to place some article between my hand and the plate. For this purpose I generally used a piece of cardboard, but on this occasion I was unable to find it and instead picked up a photograph from a pile of pictures that lay on the table. While developing the photograph later on I was interrupted and went away from my office for several hours.

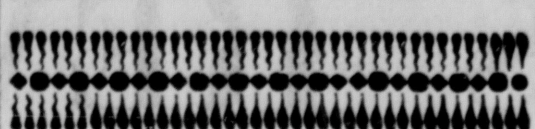

"When I returned, I proceeded with the development of the picture of my hand, and to my astonishment I found that across it was the picture of a man's body. It never occurred to me that I had reproduced the picture on the photograph which I had used in place of the piece of cardboard, and as my curiosity was thoroughly aroused I proceeded anxiously with the development of the picture. To my further astonishment I found that the picture of the form on my hand was being revealed perfectly naked. In the course of half an hour I had developed the strange picture sufficiently to see every rib in the body.

"I had not up to that time considered whose photograph I had used, but this was made clear to me when I noticed a bullet wound in the right arm. I saw at once that I had used one of my own pictures, and was astounded to find that the negative thus produced was my own body, absolutely naked. I made another negative from this, and the second negative showed all the outer tissues of the body. Continuing, I made a third negative, and this showed plainly the heart, lungs, liver and kidneys. In this negative was also plainly shown the bullet lodged in my right arm, where I had already seen the mark. More than this, even the small arteries were visible.

"When I had succeeded thus far, I concluded that I had made a great discovery by mere accident, a discovery which establishes a great fact hitherto unknown to scientific men—namely, that a photograph is a through and through likeness of the body of the individual, and that all that is needed to display every portion and organ of the body to the naked eye is to put the picture through a series of developments under a powerful light. It must be considered that the X ray is immeasurably stronger than any other light we know of. I have no doubt that the result of my experiment will lead others to make further investigations, which may lead to greater and more startling developments. The benefits of this discovery to the medical fraternity and to men of science generally can be readily appreciated. A man residing far from a physician can now send in his photograph, have it put through the course of development and when the last negative is reached, showing the internal organs, the physician can proceed to develop each organ separately and can finally ascertain whether they are diseased or not."—New York Journal.

New York's New Bridge.

Between the trusses of the new East river bridge, New York, will be six elevated railroad and trolley tracks, and on the outside of each truss a roadway, for which traffic will be provided. Inside the trusses and above the trolley tracks will be two walks for pedestrians. The total width of the floor will be 118 feet. There will be four foundations for the bridge, two under each tower.

## PLAYED A GOOD GAME

Phoenix Boys Beat Wellsville to a Turn.

ONE DEFEAT THIS SEASON

Smarting Under the Influence of That. The Team Went Down the River With the Determination to Win—Some Very Good Playing.

The Phoenix club yesterday afternoon defeated the Wellsville clerks by a score of 15 to 7.

Smarting from their defeat of a week ago the Phoenix boys determined to win the game and outplayed their rivals at every point. The game opened with the Phoenix at bat, and they scored three runs on three singles and a three base hit. Wellsville scored two on a base on balls and two singles. In the second Liverpool was shut out, and Wellsville scored one on a three base hit and a double. In the third Liverpool scored four on errors and two hits, while Wellsville got a gooseegg. In the fourth Liverpool received a shut-out and Wellsville scored four on errors and two hits. This ended the scoring of Wellsville, and but one man reached third base until the close of the game.

In the sixth inning Welch was taken out of the box and Turner substituted, but he did no better and was hit hard. The work of Cartwright in middle was the feature of the game.

The Phoenix boys have now closed their season, during which time they have met with one defeat out of five games played.

### HEALTH BOARD'S VIEW

It Endorsed the Action of the President.

### SCHOOL BOARD WERE WILLING

That the Buildings Should Not Be Thrown Open to Scholars Until All Danger of an Epidemic of Diphtheria Had Passed—A Lively Meeting.

Last night was warm, so was the board of health. The session almost assumed the proportions of an indignation meeting owing to published statements, regarding the opening of the schools and because a member of the school board had made some broad assertions.

The facts seem to be that the health officer reported several cases of diphtheria and one of scarlet fever. As nothing could be done in open session because of various circumstances, the president did his duty, and calling on four members of the board of education and all the members of the board of health it was decided that the schools should not be opened.

One paper stated the schools did not open on account of the sanitary condition of the Central building while the other knew nothing about it. The NEWS REVIEW alone gave the cause.

A published interview last night made matters look black for the board of health and there was much indignation. As a matter of fact the board of health heartily approved of the president's action, and sustained him in his efforts to keep the health of the city. Thus it is readily explained who gave the order to close the schools and why it was given.

Then the board got down to health, and arrangements were made to give the city a shaking up such as it has seldom ever experienced. The committee appointed to confer with Solicitor Lones as to the cleaning of the streets could only report progress. Main street is about the filthiest main thoroughfare on earth and costs \$100 every time it is cleaned under the present system.

Officer Warren reported six deaths and nine burial permits. There were 17 births, and eight cases of diphtheria with one of membranous croup. A small proportion was among children who do not go to school, and the quarantine will soon be lifted.

The committee on the central school sewer said that while the main building was in a perfectly healthy condition a vault which has no sewer connection is not. This brought out discussion, and a member said he had seen a member of the school board who said they were not expected to run all over town looking for a place to connect the sewer.

A sewer on Fifth street was heartily condemned, and the gutter in front of Pat Fitzpatrick's saloon was remembered. The clerk was instructed to notify the township trustees that garbage must no longer be dumped in Little Yellow creek. Dead animals have been buried along its banks, and the filth floating to the river empties a short distance above the intake of the waterworks. The officer was ordered to notify the owners of vacant lots to clear them of weeds at once, and if it was neglected the city would do it and send in a bill. There was much talk of building a garbage furnace, but no conclusion reached. A book in which will be kept the record of contagious diseases was ordered, and a bad smell from the soap factory was discussed but no action taken.

### GOOD RESULTS

Followed the Visit of Presiding Elder Hensel.

Much good followed the visit of Presiding Elder Hensel to the Evangelical church. Reverend Gamertsfelder was sent to conference at Cleveland in good shape and the church is left in an excellent financial condition. Several members who had failed to attend services and lend their aid to the church have returned to the fold and have been received with open arms by the congregation. These were useful members. It is the disposition of the congregation to have Reverend Gamertsfelder return to his charge here. He will probably accept.

### A GOOD PLAN.

To Obtain a Sewer System Without Feeling It.

A councilman expressed himself recently in regard to the proposed sewerage of the city, and so far his plan seems to be the most applicable considering the

city's financial condition. His idea is to submit the matter to a vote of the people and then, if they are willing, build first a main artery through the most central part of the city, and each year add to the line already constructed such minor arteries as the city is able to build. He thinks the city could do this and not feel the expenditure to any marked degree.

Twelve Now Known to Be Dead—Bryan's First Experience.

EMPORIA, Kan., Sept. 10.—The head-end collision on the Atchison, Topeka and Santa Fe proves the worst disaster that has occurred on that system in many years. It is now known that 12 were killed outright or soon died of their injuries and 15 others were more or less seriously injured. One or two of the wounded may succumb. A miscarriage of orders caused the wreck.

William J. Bryan, who was a passenger on one of the trains and escaped uninjured and aided materially in rescuing the unfortunates and alleviating their sufferings, says it is the first wreck he ever experienced.

A revised list of the dead are: Michael McGlade, Kansas City, postal clerk.

James Brennan, Topeka, engineer.

G. Van Cleve, brakeman.

Benjamin Walters, St. Joseph, fireman.

Gonzales, fireman.

Dan McKearnan, a tramp.

William Brisbee, Topeka, engineer.

An unknown tramp.

Missing: Harvey Fowler, Emporia, a farmer.

### THE PRESIDENT SERENADED.

Major McKinley and Governor Lowndes Then Addressed the Crowd.

SOMERSET, Pa., Sept. 10.—A crowd of 3,000 people gathered in front of the McKinley residence last evening while the Salisbury band, the best musical organization in the county, tendered the presidential party a serenade.

The president thanked the gathering in a five-minute speech, and Governor Lowndes of Maryland, who is Abner McKinley's guest, spoke for ten minutes. The crowd called for Mrs. McKinley, and when she appeared on the porch leaning on the president's arm a mighty cheer went up from the crowd. Attorney General McKenna and Secretary Alger are expected here today.

### A Big Failure.

NEW YORK, Sept. 10.—James R. Willard, Elmer Dwiggin and Jay Dwiggin, who compose the firm of J. R. Willard & Co., bankers and brokers, with offices in this city, Buffalo, Washington, Philadelphia and Montreal have failed for \$1,000,000.

A good many big guns are preparing  
for the campaign, but it would not be  
fair to say that they are being loaded.

SILVER has dropped 15 per cent since  
the Ohio Democrats built their platform.  
No wonder they want a new issue.

A POSTMASTER chosen at the polls  
would represent the wishes of the ma-  
jority of East Liverpool's Republicans.

POOR Ireland. Not for many years  
have the prospects been so gloomy.  
Crops have failed and the people are  
already poor, which means that the list  
of emigrants will grow with every  
month.

THERE are so many signs of prosper-  
ity that to enumerate them would mean  
a task of no inconsiderable proportions.  
Suffice it is to say that Americans are  
once more making goods for the Amer-  
ican trade.

THE campaign will open tomorrow at  
Newark, Burton and Washington, and  
from that time until the result is an-  
nounced in November the battle will  
rage all along the line, provided the  
Democrats have strength enough to  
enter the war.

A MAN in search of a good investment  
would be assured of ample return if he  
placed his money in a large, comfort-  
able building where the people of East  
Liverpool can gather by the thousand.  
The destruction of the rink deprives the  
city of a meeting place.

THERE is much speculation as to the  
probable announcement President Mc-  
Kinley will make when he officially  
discovers that Spain is determined to do  
nothing toward preventing the brutal-  
ity of General Weyler from finding  
vent in the murder of Americans as  
well as Cubans.

SOUTH CAROLINA having held out its  
hand to protection, Alabama feels that  
it too should take a more liberal view of  
the chosen political sentiment of the  
north. It is announced that not only  
the iron men of Birmingham are turn-  
ing to Republicanism, but large num-  
bers of miners and railroaders are fall-  
ing into line.

### THE FARMER'S HOPE.

The farmers of Columbiana county  
will not become rich through the wheat  
crops of this year, but they can very  
sensibly increase their incomes next year  
if they in their wisdom increase their  
flocks and prepare for the high price to  
which wool is sure to go. Already sheep  
have risen in price until farmers have  
difficulty in securing what they want,  
but judges of the situation say that be-  
fore winter is far advanced they can be  
purchased at a cost which the market  
value of wool next year will make the  
right kind of an investment. It really  
looks as though the wool producing sec-  
tion of Ohio will cancel a few mortgages  
too next fall.

### Others Need It.

Street Commissioner Finley today

street. There are a number of other  
alleys that should be cleaned as soon as  
possible.

A good many big guns are preparing  
for the campaign, but it would not be  
fair to say that they are being loaded.

SILVER has dropped 15 per cent since  
the Ohio Democrats built their platform.  
No wonder they want a new issue.

A POSTMASTER chosen at the polls  
would represent the wishes of the ma-  
jority of East Liverpool's Republicans.

POOR Ireland. Not for many years  
have the prospects been so gloomy.  
Crops have failed and the people are  
already poor, which means that the list  
of emigrants will grow with every  
month.

THERE are so many signs of prosper-  
ity that to enumerate them would mean  
a task of no inconsiderable proportions.  
Suffice it is to say that Americans are  
once more making gods for the Amer-  
ican trade.

THE campaign will open tomorrow at  
Newark, Burton and Washington, and  
from that time until the result is an-  
nounced in November the battle will  
rage all along the line, provided the  
Democrats have strength enough to  
enter the war.

A MAN in search of a good investment  
would be assured of ample return if he  
placed his money in a large, comfort-  
able building where the people of East  
Liverpool can gather by the thousand.  
The destruction of the rink deprives the  
city of a meeting place.

THERE is much speculation as to the  
probable announcement President Mc-  
Kinley will make when he officially  
discovers that Spain is determined to do  
nothing toward preventing the brutal-  
ity of General Weyler from finding  
vent in the murder of Americans as  
well as Cubans.

SOUTH CAROLINA having held out its  
hand to protection, Alabama feels that  
it too should take a more liberal view of  
the chosen political sentiment of the  
north. It is announced that not only  
the iron men of Birmingham are turn-  
ing to Republicanism, but large num-  
bers of miners and railroaders are fall-  
ing into line.

### THE FARMER'S HOPE.

The farmers of Columbiana county  
will not become rich through the wheat  
crops of this year, but they can very  
sensibly increase their incomes next year  
if they in their wisdom increase their  
flocks and prepare for the high price to  
which wool is sure to go. Already sheep  
have risen in price until farmers have  
difficulty in securing what they want,  
but judges of the situation say that be-  
fore winter is far advanced they can be  
purchased at a cost which the market  
value of wool next year will make the  
right kind of an investment. It really  
looks as though the wool producing sec-  
tion of Ohio will cancel a few mortgages  
too next fall.

### Others Need It.

Street Commissioner Finley today  
cleaned a number of alleys below Fourth  
street. There are a number of other  
alleys that should be cleaned as soon as  
possible.

## BLANKET SALE.

RATHER WARM to talk about Blankets  
this August weather, but you know  
it is only a few weeks now, until you  
will be looking for winter goods. There are  
good reasons for it. We bought our blanket  
stock much earlier than usual this year, as  
we knew we would have to pay about 25  
per cent more if we waited. This sale pre-  
sents you an opportunity to buy blankets  
for just about the price the retailer will have  
to pay later.

## IF YOU DO NOT WANT THEM YET.

PAY A SMALL DEPOSIT and have them

## PUT HIM ON SALARY

Pay the Mayor For Governing the City.

## LET'S HAVE A LITTLE LAW

The Present System Is Not Equal to the Demands—Throw It Aside and Have an Arrangement Compelling the Enforcement of the Statutes.

The problem of a better government for East Liverpool has been slowly but surely fastening itself upon the people, and from present indications it is only a matter of time until those officials who do the actual work of conducting the affairs of the city will be paid salary sufficient to warrant the task being done in a manner which means the enforcement of the laws.

While it is true that the present system represents what someone once looked upon as economy, it does not necessarily follow that that result has been found. On the other hand it seems that economy has been the very last end attained. There is nothing to commend the arrangement to the taxpayer beyond the mere statement that it might save dollars and cents. That assertion remains to be proved.

Look for a moment on the position and office of mayor. East Liverpool has attained a place among the municipalities of Ohio where the dignity of office should be considered. Clothe it with this dignity, and you will have an enforcement of the law such has never before been known. Allow it to remain as it is at present, and has been for a good many years, and you have a condition which does not reflect credit upon the intelligence of the people.

The mayor is paid a miserable pittance, not enough in the way of salary to prevent his soul from leaving the body provided he attempted to subsist on what he is allowed. For the remainder he is expected to make what he can from the office. Costs in police court cases are his great source of revenue. If there are no costs he gets no money. How often in the past 20 years has an offender been called into court, and when it was known that there was not enough money in his pockets to pay fine and costs he has been allowed to go, after paying what the authorities looked upon as the legitimate expense to which they had been put to remind him that he was not obeying the law? How often have offenders been assessed a fine and costs and then allowed to go, perhaps through some outside influence, by the payment of the costs? Always the costs. It doesn't matter whether the city obtains the fine. That is not a matter of so much importance. The costs must first be considered.

Now turn to the police force. Officers are employed through favoritism, without regard to efficiency. Each administration has its friends, and they must be provided with dish and spoon in order that they may have their share of public pay. As a rule it matters not what the public suffers in inefficiency and neglect of duty. That counts little, if any. The successful candidate has carried out his promises, and the friends are provided for. That this system is sadly in need of reform, one needs but to look at the average municipal government. Compare it with the municipal government of other civilized countries, and one will find the American people suffering under a load of debt and crime, accomplished solely by the one fact that its officers are not doing their duty; that they do not render a dollar's worth of service for the people's dollar.

Is East Liverpool so bad? Glance around you. Recall some events of recent years. Look through the records at police court, or walk the streets with your eyes and ears wide open almost any Sunday.

How much better if another system was in use. Employ as the executive officer a man who would be tempted by an annual salary of \$1,200, and place at the head of the police force a trained chief, allowing him \$1,000 a year. Give him a force of patrolmen who know that duty is their watchword and failure to perform that duty means dismissal in disgrace. Then pay each officer for his work \$800 a year, for under those conditions he will earn it.

These things will cost money; but stop for a moment and remember that every dollar collected from every prisoner will go into the city's treasury. There would be more dollars. The stringency with which the laws would be enforced would bring additional revenue, much more in fact than the city obtains at present, while there would be the knowledge that the law was not the plaything of everyone who desired to break it.

## IMPORTANT ARRESTS

Have Been Made at Industry by Beaver Officials.

Officers from Beaver county have since yesterday morning caused the arrest of two men whom they expect to prove caused the death of a young man named Wilkes at Industry a few weeks ago. The men arrested are Sandy Campbell and Mason. The former was arrested by Constable Walton, of Beaver, yesterday afternoon while at work in a coal mine owned by Frank Wind, at Shippingport. Mason was caught by Beaver county detectives while walking on the Cleveland and Pittsburg railroad near Industry this morning. Both men are now in Beaver jail.

Before Wilkes was killed, he had been drinking with a crowd of young men, none of them over 20 years old. The boys disappeared for a time, but Tuesday night last they met again, and after drinking heavily, began fighting. Four of them accused each other of being the cause of Wilkes' death, and consequently the authorities were notified, with the result stated. The officers are on the trail of the others, and it is only a matter of time until the seven will be brought before the grand jury.

## FORTY PEOPLE KILLED

And Scores Were Fatally Injured In Colorado.

NEW CASTLE, COLO., Sept. 10.—[Special]—A west bound passenger train was wrecked near this place at an early hour this morning on the Denver and Rio Grande railroad by colliding with a freight. Many people have been killed. Latest information from the scene of the catastrophe places the number at 40. In addition to this it is known that scores of others have been fatally injured.

Particulars of the accident are meager, but it is known that the collision occurred while the train was running at a high rate of speed. It is among the worst if not the worst wreck, from point of loss of life, in the history of the Rio Grand system.

## INCREASED A REWARD.

Beaver County Will Pay Dearly For a Murderer.

The commissioners of Beaver county yesterday increased the reward to \$1,400 for the arrest of the murderer of Charles Grower, who was killed last Saturday night on a freight train by tramps.

The man who is supposed to have done the deed was seen near Vanport yesterday morning, and wore a false moustache. With a crowd of others he is living in the hills near that town, and a woman who keeps house for them was seen on the river beach this morning giving a basket of eatables to a man who came there in a skiff. The party in the skiff was seen at the house mentioned Wednesday night, and left town about 2 o'clock yesterday morning.

## PROSPERITY IN DAKOTA.

Wheat Is Abundant and the People Are Happy.

S. L. Todd, of Dell Rapids, S. D., is the guest of his brother, Thomas Todd, of Fourth street. Mr. Todd is a veteran of the war, and after attending the Buffalo encampment came here for a visit. He left this vicinity 18 years ago, and has not been in Liverpool for 20 years. Mr. Todd says the farmers of Dakota have plenty of wheat, and prosperity has already come to them.

## Will Return.

Mr. Head and Mr. Kelly, who have been here representing the East Liverpool, Fredericktown and Lisbon line, have gone to Cleveland on business connected with the company. They will return next week.

J. P. Hanlon today sold for John Hunter a lot on Simms' hill to James Deacon for \$275.

## CONKLE WAS ARRESTED

His Family and Their Effects Being Put In the Street,

BECAUSE HE OWED NINE DOLLARS

And a Judgment Had Been Taken In Court—Indignant People Created a Scene While One Sympathizer Paid the Money and Ended the Trouble.

A scene was enacted in Fourth street last night which aroused the indignation of the people, and well it might for it was attended by many pitiable circumstances.

Same time ago, J. Hollingshead as agent for his wife, took judgment in the court of Squire Hill for forcible detention against Charles Conkle, a paper hanger and painter. The matter was not settled, and yesterday afternoon Constable Lyon went to the house in Fourth street to move the family's belongings.

Conkle was at home, and his wife, who is in a delicate condition, was not able to be moved. He protested, but the officer said he must do his duty. Conkle protested more vigorously, and it is alleged, resisted the constable. He was placed under arrest, and taken to city hall, the officer returning to remove the remainder of the family.

The mother and four children were soon acquainted with the facts, and moved into the street, while their belongings were placed on the pavement. A large crowd was attracted by the unusual scene, and it was evident their sympathy was with the unfortunate. One little fellow, Conkle's son, ran crying into the street, carrying his shoes, and among other little treasures an apple. All the children were sobbing as though they had nothing on earth, and the poor mother was almost wild with grief.

Among the spectators was George C. Murphy, and when he saw that the officer really intended to leave the poor people in the street he heeded the suggestions of a few bystanders and asked how much the family owed.

"Nine dollars," was the reply. "Will you let them move back if I stand responsible for the amount?" was the next question, and Constable Lyon said he would. That settled the matter, and with many expressions of thankfulness the weeping children went into the house.

The father was released from custody, no charge having been placed against him.

The incident aroused almost universal indignation, and was generally discussed on the streets last night.

## HAMPSON SELECTED.

High Honor Conferred on a Columbiana County Man.

George W. Croxall has returned from Toledo, where he attended the annual conclave of the Knights Templars of Ohio. It was a most enjoyable meeting, a large number of Knights and their ladies being present.

When Mr. Croxall left home he took with him a number of handsome porcelain emblems of Pilgrim commandary. They were the finest at the conclave and attracted universal attention.

A matter of general interest was the elevation of R. V. Hampson, of Salem, to the highest position in the gift of the order, right eminent grand commander. Mr. Hampson is known to almost every Mason in the county.

And Scores Were Fatally Injured In Colorado.

NEW CASTLE, COLO., Sept. 10.—[Special]—A west bound passenger train was wrecked near this place at an early hour this morning on the Denver and Rio Grande railroad by colliding with a freight. Many people have been killed. Latest information from the scene of the catastrophe places the number at 40. In addition to this it is known that scores of others have been fatally injured.

Particulars of the accident are meager, but it is known that the collision occurred while the train was running at a high rate of speed. It is among the worst if not the worst wreck, from point of loss of life, in the history of the Rio Grande system.

### INCREASED A REWARD.

Beaver County Will Pay Dearly For a Murderer.

The commissioners of Beaver county yesterday increased the reward to \$1,400 for the arrest of the murderer of Charles Grower, who was killed last Saturday night on a freight train by tramps.

The man who is supposed to have done the deed was seen near Vanport yesterday morning, and wore a false moustache. With a crowd of others he is living in the hills near that town, and a woman who keeps house for them was seen on the river beach this morning giving a basket of eatables to a man who came there in a skiff. The party in the skiff was seen at the house mentioned Wednesday night, and left town about 2 o'clock yesterday morning.

### PROSPERITY IN DAKOTA.

Wheat Is Abundant and the People Are Happy.

S. L. Todd, of Dell Rapids, S. D., is the guest of his brother, Thomas Todd, of Fourth street. Mr. Todd is a veteran of the war, and after attending the Buffalo encampment came here for a visit. He left this vicinity 18 years ago, and has not been in Liverpool for 20 years. Mr. Todd says the farmers of Dakota have plenty of wheat, and prosperity has already come to them.

### Will Return.

Mr. Head and Mr. Kelly, who have been here representing the East Liverpool, Fredericktown and Lisbon line, have gone to Cleveland on business connected with the company. They will return next week.

J. P. Hanlon today sold for John Hunter a lot on Simms' hill to James Deacon for \$275.

## CONKLE WAS ARRESTED

His Family and Their Effects Being Put In the Street,

BECAUSE HE OWED NINE DOLLARS

And a Judgment Had Been Taken in Court—Indignant People Created a Scene While One Sympathizer Paid the Money and Ended the Trouble.

A scene was enacted in Fourth street last night which aroused the indignation of the people, and well it might for it was attended by many pitiable circumstances.

Same time ago, J. Hollingshead as agent for his wife, took judgment in the court of Squire Hill for forcible detention against Charles Conkle, a paper hanger and painter. The matter was not settled, and yesterday afternoon Constable Lyon went to the house in Fourth street to move the family's belongings.

Conkle was at home, and his wife, who is in a delicate condition, was not able to be moved. He protested, but the officer said he must do his duty. Conkle protested more vigorously, and it is alleged, resisted the constable. He was placed under arrest, and taken to city hall, the officer returning to remove the remainder of the family.

The mother and four children were soon acquainted with the facts, and moved into the street, while their belongings were placed on the pavement. A large crowd was attracted by the unusual scene, and it was evident their sympathy was with the unfortunate. One little fellow, Conkle's son, ran crying into the street, carrying his shoes, and among other little treasures an apple. All the children were sobbing as though they had nothing on earth, and the poor mother was almost wild with grief.

Among the spectators was George C. Murphy, and when he saw that the officer really intended to leave the poor people in the street he heeded the suggestions of a few bystanders and asked how much the family owed.

"Nine dollars," was the reply.

"Will you let them move back if I stand responsible for the amount?" was the next question, and Constable Lyon said he would. That settled the matter, and with many expressions of thankfulness the weeping children went into the house.

The father was released from custody, no charge having been placed against him.

The incident aroused almost universal indignation, and was generally discussed on the streets last night.

### HAMPSON SELECTED.

High Honor Conferred on a Columbiana County Man.

George W. Croxall has returned from Toledo, where he attended the annual conclave of the Knights Templars of Ohio. It was a most enjoyable meeting, a large number of Knights and their ladies being present.

When Mr. Croxall left home he took with him a number of handsome porcelain emblems of Pilgrim commandary. They were the finest at the conclave and attracted universal attention.

A matter of general interest was the elevation of R. V. Hampson, of Salem, to the highest position in the gift of the order, right eminent grand commander. Mr. Hampson is known to almost every Mason in the county.

### Lost His Coat.

J. E. McDonald while driving to East End on the lower road this morning, lost his coat which was on the buggy seat beside him. He turned back and had gone but a short distance when Frank Risinger, who found it, rode up on his bicycle and gave the article to its owner.

Very swell, and rich enough for a king, are the men's royal purple Russia calf shoes just received at

### You Mean Wellsville.

The East Liverpool public schools did not open Monday, Sept. 6., but on account of so many cases of diphtheria they will not open until the 13th.—Toronto Tribune.

The sweep sale at Frank, Shumaker & Co.'s will not last much longer. Shoe up, while you can, for little money.

### Owens a Good Horse.

Pauline, the handsome horse owned by Edward Davidson, of Broadway, took first over a field of 17 fine horses entered in the driving class at the Salem fair.

### A VERY OLD VIOLIN

Has Been In Service a Great  
Many Years.

WAS BOUGHT IN CALIFORNIA

By an East Liverpool Man Who Braved  
the Dangers of the Early Days in the  
Search For Gold—Highly Valued by Its  
Owner.

A prominent gentleman of the city is  
the possessor of a violin which is  
thought to be 380 years old.

In 1849 when the gentleman was in  
California the violin was owned by an  
old German, who played it when  
by himself, but never was it  
shown to anyone. The German  
was taken ill and died of typhoid  
fever, and when his effects were sold the  
violin was purchased with the under-  
standing that it would be returned if the  
property was ever proven, as it was  
thought the fiddle did not belong to the  
German. It is now valued at \$1,000.

The violin is an unusually fine piece  
of work. On the head are the finely  
carved features of a handsome  
monk, while on the back is a painting  
of Christ in oil. The inlaid work is un-  
usually fine, while the carving is ex-  
traordinary. On the ribs is found the  
inscription, "Tys Cesco Si G + Y. Lactic  
Freja Del Fratres G + Y Ody," while  
the name of the maker and the place  
and date are Gaspard Diuffo, Pruggar  
Bonarnillo, Anno 1516. There is but  
little doubt that the violin is a lost one,  
and an effort will be made to get its  
history.

#### PITCHING HORSESHOES.

Zach Robinson Does Not Miss the Hours of  
Exercise.

A Steubenville, man who was in town  
today, said that when he was shown  
through the Columbus penitentiary a  
few days ago, he saw Zach Robison in a  
cell in the annex. He was reading a  
novel, and when the man stopped in  
front of the cell Robison raised his head  
long enough to see who they were, and  
then went on reading. He looked tired,  
and had just been put in the cell after  
pitching a game of quoits during the  
allotted two hours exercise.

#### CALLING IN THE KEYS.

Association Authorities Want to Know  
Where They Are.

The gymnasium committee of the  
Young Men's Christian association,  
through Director Morris, has issued an  
order that persons who hold keys for  
lockers will turn them in at once. The  
object is to find just who has the keys  
as the Association officials gave them out  
long before Director Morris assumed  
control, and no list was ever made.

#### A FEW PASSENGERS

Are Riding On the Cumberland  
Branch.

Passenger trains on the upper end of  
the Cumberland branch are making  
regular trips with one coach. Traffic is  
light, but more business was done yes-  
terday than at any time during the  
week. There is no turntable at Kenil-  
worth and trains back from Wheeling  
Junction.

#### On the River.

The river took quite a tumble last  
night, and the marks at noon today show  
23 inches and falling. If there is no rain  
within the next few days, the river will be  
lower than it has been for over a year.

The trading boat that has been tied to  
the wharf boat since yesterday, will  
leave for New Orleans tomorrow. It is  
taking in a good supply of ware.

#### In a Famous Yacht.

Homer J. Taylor has been invited to  
make one of a party who will cruise for  
a month with Mr. Bush, state printer of  
Pennsylvania, but has not decided to ac-  
cept. Mr. Bush recently purchased a  
yacht for \$40,000, and readers of the  
morning papers will remember that it  
created something of a sensation in  
Pittsburg.

#### NOTICE.

## WANT A GOOD WITNESS

Steuenville Officers Are Looking For a Man.

HE WAS IN THIS PLACE

But Slipped Out In Time to Prevent the Authorities Returning Him to Jefferson County—He Knows a Great Deal About the Rose Murder.

Constable Samuel Clement, of Steuenville, was in the city yesterday afternoon looking for one George Baker, who is wanted by the Jefferson county authorities as the state's main witness in the Rose murder case soon to be tried in that place. The constable returned home on the evening train without his man, but with information that will lead to his capture.

Baker is colored and once worked in this place as cook in a restaurant. From here he went to Cleveland, and after remaining there several months returned to Wellsville last Wednesday, and came to this city on a street car. The Steuenville authorities in the meantime were notified of his being here. He spent the day with friends, and after seeing the town went to the Cleveland and Pittsburgh ticket office, and purchased a ticket for Rochester. He then went outside the station, hailed a youth, gave him a duplicate check for his trunk and told him to have it sent to Rochester. The lad did this, and Baker, after paying him, boarded a street car and went to East End, where he got on the train leaving this place at 4:20. At Rochester he had his trunk rechecked to Beaver Falls, going to that town on a street car.

Clement and another officer from the lower river town passed through the city this morning in the way to Beaver Falls where they have secured a clue to the much wanted witness, and they expect to have him by tomorrow night.

### DISTRIBUTING THE PRIZES.

Labor Day Winners Are to Be Rewarded.

The sports committee of the general committee in charge of Labor day have decided that the orders for prizes shall be given out by the agent who took the entries, and all who will call on C. T. Larkins will be given their due.

The general committee will meet this evening to wind up all business connected with the celebration.

### A Human Spinwheel.

Convict Painter, serving in the Ohio penitentiary for burglary and larceny, had a thrilling and exhilarating experience recently. He came too close to a couple of set screws on a flywheel. The screws caught the seat of his trousers, and for about a minute made a perfect human spinwheel out of Painter. The trousers couldn't stand the strain long, however, and Painter fell to the ground, badly bruised but not fatally injured. — Cincinnati Enquirer.

### Sewer Moved a Boat.

The wharf boat has been dropped down the river several feet. This is caused by low water and the fact that the Broadway sewer opening is now 15 feet from the water's edge. The bad odor arising from the drain when the weather is warm is beyond description.

### He's Got a Little List.

Clerk Hanley is busily engaged making out a list of property owners who have failed to pay their street assessments within the time limit. The list will be completed by Friday night and the books will be forwarded to the county auditor Saturday morning.

### Abundant Work.

The Cleveland and Pittsburgh pony has much work to do. Engineer Work is at his post at 5 o'clock every morning, and in an hour and he and Conductor Jordon are hard at it. The amount of freight handled in the yards every day is very heavy.

### Excursions to Beaver.

Sept. 22-24, low rate excursion tickets will be sold to Beaver from Wellsville and intermediate ticket stations on Pennsylvania lines for Beaver county fair; return coupons valid Sept. 25, inclusive.

### It's Getting Better.

The Vodyre plant today loaded a car of ware for a New York merchant. This makes two cars of ware loaded in the local yards in as many days.

### Heavy Shipments.

Shipments continue better at the freight depot, and a goodly number of cars were sent out today.

## A Nation of Medicine Takers.

It is an accepted fact that the American people are the greatest users of medicines of one sort or another on the face of the earth. Imaginary ills make up a large part of man's earthly troubles. Some people need only to read the vivid description of some chronic disease, and they are at once victims to the complaint in question. Many patent medicine vendors make use of this peculiarity and lead some people to believe that their tired feeling comes from their blood not being rich and red. Millions would be saved and our general health would be better if we would take medicine only when really needed and then get a remedy specially prepared for the disease with which we are suffering.

As an illustration, when you have sore throat, there can't be any imagination about it. Your throat hurts; probably is covered with white ulcerated spots, and you know you need a remedy. Use good judgment. Get a cure put up for this one purpose. There is such a remedy. Tonsiline is its name, and it is a wonder in its field. Being put up for this one class of diseases, it cures quickly, surely, and many times as if by magic. No family can afford to be without Tonsiline in the home, as it is a certain cure for Sore Throat, Sore Mouth, Croup and Quinsy. Ask your neighbors who have used it. All druggists sell Tonsiline. 25 and 50 cents.

### Excursions to Pittsburg.

Excursion tickets to Pittsburg will be sold Thursdays, Sept. 9, 16, 23 and 30, Oct. 7 and 14, from Erie, Ashtabula, Massillon, New Philadelphia, Bellaire, Wheeling, Dennison, Washington, Cadiz, New Cumberland and intermediate ticket stations on the Pennsylvania Lines. The rate will be one fare for round trip, plus 25 cents, which covers admission coupon to the Exposition. Tickets will be sold for regular trains on dates specified, and will be good returning three days, including day of sale. For rates, tickets, time of trains and special information, apply to nearest Pennsylvania Line Ticket Agent. \*

### Excursions to Columbus, O.

Low rate excursion tickets will be sold to Columbus, O., from ticket stations on Pennsylvania Lines in September as follows:

September 16, 17 and 18, German Catholic Benevolent Society of the United States; return coupons valid September 25, inclusive.

September 21 and 23, Union Veteran Legion National Encampment; return coupons valid September 27. By depositing U. V. L. excursion tickets with Union Station Ticket Agent, Columbus, an extension of return limit may be obtained to leave Columbus not later than October 12. \*

### Coal Not "Sky High."

As Thomas, the "Rock of Chica-mauga," on which the rebel tide dashed in vain; or as Sherman stood, a tower of strength against national financial disaster, so Moore, the coal man, has stood between the rapacity of coal speculators and the industries of East Liverpool. Prices are not sky high with Moore.

### Successful Naval Evolutions.

FORT MONROE, Sept. 10.—The Dolphin has returned to Hampton Roads with Assistant Secretary Roosevelt, who has just completed an inspection of the North Atlantic squadron at sea and while under full fleet manœuvres. This is the first inspection made in recent years under such conditions, and the results were highly satisfactory. An extensive program of exercises was successfully executed in a limited period of time.

### Wheat Goes Up Again.

CHICAGO, Sept. 10.—Wheat took another long step toward the dollar mark, the December option closing at 97 3/4c.

# Klondyke

## The Land of Golden Nuggets.

JOSEPH LADUE,

the new Bonanza King of the Klondyke Gold Regions, gives the facts. His book reads like "The Arabian Nights," BUT Joseph Ladue KNOWS whereof he writes. He was the first man on the spot when the first gold was discovered last August, 1896. He located one rich claim and immediately purchased twelve others at a low price before their value was known. He has refused \$100,000 for any ONE of these claims, as they are rich with virgin gold nuggets, beyond the dream of avarice. Joseph Ladue then

## Established Dawson City

at the mouth of the Klondyke and Yukon Rivers, by erecting the first house in the region in September, one month after the gold was first discovered. He bought 178 acres from the government on the city site where his town lots 150x50 are now selling for \$5,000 each.

Mr. Ladue was fortunate enough to be successful in his trading post investments to have on hand ample capital to carry out his plans, and there is no man living who is better posted on Alaska and the great North West Territories than Mr. Joseph Ladue. He has just returned from that country to his old home in Schuler Falls, N. Y., where he passed a large portion of his boyhood and early manhood. Mr. Ladue left his home nearly twenty years ago to seek his fortune in the west going first to the Black Hills, where he was successful in gold mining, thence to Arizona and the Pacific coast and finally located in Alaska and the northwest, where he has covered almost the entire country since 1882. Mr. Ladue is a typical pioneer: strong, hardy and resolute—a man of iron as one must needs be to go through the hardships he has and come out with a constitution unbroken and unimpaired at about the age of 43. Mr. Ladue has not only worked his muscles to good advantage to himself with the result of an abundance of the world's goods, far beyond the dreams of men, but he has evidently all this time been closely observing the conditions of that strange country—the Yukon Valley—which has so suddenly become one of the great centers upon which human interest throughout the world is focussed.

When the wonderful stories began to come down from the Yukon country it was naturally concluded that it was at least half exaggeration. That any such amount of gold could be taken in so short a time from a country like that under the most most unfavorable conditions was held to be incredible. But when the great bags of virgin gold began to be poured out upon mint counters in San Francisco under the eyes of the whole world (for modern journalism does this, annihilating time and space) people began to wonder and the wonder grew day by day as the real facts were disclosed, and now people who are well informed as to the facts declare that half the truth has not been told of the golden treasures of the Yukon Valley.

As we have already said, there is no man today alive who knows more about this wonderful country than does Mr. Ladue. What makes his talk of it specially interesting and reliable is the fact that his knowledge of it is practical. It has not been gained from hearsay nor from desultory visits made now and then at certain favorable seasons of the year, but from steady living there through the long summer days and the long winter nights, year in and year out for 15 years, where he now owns the best mining claims on the Klondyke and its tributaries.

In presenting his book to the public we do so knowing that it is by an authority on the subject of which he writes. His first work entitled

## "Klondyke Nuggets"

is a brief description of the new gold regions, and anyone desiring authentic information should not fail to avail themselves of our

## NOMINAL OFFER

which places the facts in the possession of our readers. REMEMBER, that our office is the sole distributing point for this locality, having closed exclusive arrangements with Mr. Ladue's publishers.

The cover of the work is beautifully printed in red and gold, the gold showing one of the author's nuggets as nearly as it is possible to reproduce it on paper.

It is easy to secure a copy of "KLONDYKE NUGGETS." Cut out the Coupon and follow instructions.

### COUPON FOR "KLONDYKE NUGGETS."

Cut out this Coupon and bring it with you as an evidence that you are a reader of the NEWS REVIEW, and Ten Cents in cash and a copy of "Klondyke Nuggets," by Joseph Ladue, the Bonanza King of the new gold regions, will be handed to you.

Cut out this coupon and send it together with 12c in stamps for clerical work and mailing expenses, and we will send a copy of "Klondyke Nuggets" to your address. Write very clearly and give your name and address in full.

Remember, you should not delay, as you will be unable to secure this valuable work on the gold region in any other way.

As an illustration, when you have sore throat, there can't be any imagination about it. Your throat hurts; probably is covered with white ulcerated spots, and you know you need a remedy. Use good judgment. Get a cure put up for this one purpose. There is such a remedy. Tonsiline is its name, and it is a wonder in its field. Being put up for this one class of diseases, it cures quickly, surely, and many times as if by magic. No family can afford to be without Tonsiline in the home, as it is a certain cure for Sore Throat, Sore Mouth, Croup and Quinsy. Ask your neighbors who have used it. All druggists sell Tonsiline. 25 and 50 cents.

### Excursions to Pittsburgh.

### Coal Not "Sky High."

As Thomas, the "Rock of Chicamanga," on which the rebel tide dashed in vain; or as Sherman stood, a tower of strength against national financial disaster, so Moore, the coal man, has stood between the rapacity of coal speculators and the industries of East Liverpool. Prices are not sky high with Moore.

ROBERT MOORE,  
Coal Dealer.

### Successful Naval Evolutions.

FORT MONROE, Sept. 10.—The Dolphin has returned to Hampton Roads with Assistant Secretary Roosevelt, who has just completed an inspection of the North Atlantic squadron at sea and while under full fleet maneuvers. This is the first inspection made in recent years under such conditions, and the results were highly satisfactory. An extensive program of exercises was successfully executed in a limited period of time.

### Wheat Goes Up Again.

CHICAGO, Sept. 10.—Wheat took another long step toward the dollar mark, the December option closing at 97 1/4c.

# Klondyke

## The Land of Golden Nuggets.

JOSEPH LADUE,

the new Bonanza King of the Klondyke Gold Regions, gives the facts. His book reads like "The Arabian Nights," BUT Joseph Ladue KNOWS whereof he writes. He was the first man on the spot when the first gold was discovered last August, 1896. He located one rich claim and immediately purchased twelve others at a low price before their value was known. He has refused \$100,000 for any ONE of these claims, as they are rich with virgin gold nuggets, beyond the dream of avarice. Joseph Ladue then

## Established Dawson City

at the mouth of the Klondyke and Yukon Rivers, by erecting the first house in the region in September, one month after the gold was first discovered. He bought 178 acres from the government on the city site where his town lots 150x50 are now selling for \$5,000 each.

Mr. Ladue was fortunate enough to be successful in his trading post investments to have on hand ample capital to carry out his plans, and there is no man living who is better posted on Alaska and the great North West Territories than Mr. Joseph Ladue. He has just returned from that country to his old home in Schuler Falls, N. Y., where he passed a large portion of his boyhood and early manhood. Mr. Ladue left his home nearly twenty years ago to seek his fortune in the west going first to the Black Hills, where he was successful in gold mining, thence to Arizona and the Pacific coast and finally located in Alaska and the northwest, where he has covered almost the entire country since 1882. Mr. Ladue is a typical pioneer: strong, hardy and resolute—a man of iron as one must needs be to go through the hardships he has and come out with a constitution unbroken and unimpaired at about the age of 43. Mr. Ladue has not only worked his muscles to good advantage to himself with the result of an abundance of the world's goods, far beyond the dreams of men, but he has evidently all this time been closely observing the conditions of that strange country—the Yukon Valley—which has so suddenly become one of the great centers upon which human interest throughout the world is focussed.

When the wonderful stories began to come down from the Yukon country it was naturally concluded that it was at least half exaggeration. That any such amount of gold could be taken in so short a time from a country like that under the most most unfavorable conditions was held to be incredible. But when the great bags of virgin gold began to be poured out upon mint counters in San Francisco under the eyes of the whole world (for modern journalism does this, annihilating time and space) people began to wonder and the wonder grew day by day as the real facts were disclosed, and now people who are well informed as to the facts declare that half the truth has not been told of the golden treasures of the Yukon Valley.

As we have already said, there is no man today alive who knows more about this wonderful country than does Mr. Ladue. What makes his talk of it specially interesting and reliable is the fact that his knowledge of it is practical. It has not been gained from hearsay nor from desultory visits made now and then at certain favorable seasons of the year, but from steady living there through the long summer days and the long winter nights, year in and year out for 15 years, where he now owns the best mining claims on the Klondyke and its tributaries.

In presenting his book to the public we do so knowing that it is by an authority on the subject of which he writes. His first work entitled

## "Klondyke Nuggets"

is a brief description of the new gold regions, and anyone desiring authentic information should not fail to avail themselves of our

**LOCAL BREVITIES.**

The board of health will meet this evening.  
No arrests were made last night, and the only people in the coop today were Mr. Smith and Mr. Boyle.  
Liverpool was a Mecca for traveling men today, no less than 18 of them coming in the city on early trains.  
It is noticed that the amount of coal coming to the city is increasing. Eight cars were brought here yesterday.  
Miss Gertrude Stoddard has taken a position as typewriter and stenographer in the office of the Standard, Wells-ville.  
Reptile, the fast horse, owned by Doc McFarland in the 2:40 trot at Salem, yesterday, took fourth place in every heat.  
The executive committee of Spring Grove campground will meet this evening and make arrangements for next season.  
Street car No 5 blew out a fuse while coming up the Washington street hill. Pushing a heavy load of ties on a flat car was the cause.  
Sunday, Sept. 19, will be observed as building fund day at the Christian church. All monies received on that day will be added to the new church fund.  
E. D. Marshall this morning commenced a forcible detention action against Phillip Rau, the East End saloonist. The case will be heard tomorrow morning.  
Heckathorn, McCurran and Albright left this morning for Lisbon, where they will play ball today and tomorrow. The Lisbon team is now composed of seven Liverpool players.  
A number of the friends of Mr. and Mrs. S. G. Hard last evening called at their home in Jackson street to help them celebrate their forty-ninth anniversary. A very pleasant evening was spent.  
Clerk Hanley has heard nothing from the McClurg Gas Construction company since the passage of the ordinance, and it is not known whether the concern will accept the franchise. It has until Sept. 24 to decide.  
The water works trustees will not meet this evening owing to the fact that it is impossible for some of the members to be present. The meeting will be held next Friday evening.  
The parties who participated in the fight at Columbian park on Labor day will probably all be called to account, as some of the special officers have signified their intention of entering charges against the offenders.  
The child of Mr. and Mrs. Joseph Webb, who has been so dangerously ill with diphtheria, has almost entirely recovered. The case was one of the worst ever seen in the city, and a silver tube was inserted in the throat of the child and antitoxine administered.  
The receipt books stolen from the office of Robert Moore at the foot of Second street Wednesday evening, while the owner was working with his boats at the wharf, were returned last night between 10 and 11 o'clock. The parties who took them are unknown.  
A flat of coal owned by a local dealer while coming down the river, last night, ran aground near Georgetown. The owner and several other men will go there tonight, and it is expected to have it floated within a few hours. The flat is stuck in the channel.  
The committee, who are obtaining the views of the property owners along Tanyard run in regard to the proposed sewer, have almost completed their work, and if it is possible to complete their report before next Tuesday evening, a special meeting of council will be called to consider the subject.  
Second Lieutenant Johnson, of Company E, has resigned. Captain Hill received the resignation this morning, and in it Johnson says ill health is the cause of his wanting out of the company. There are a number of aspirants for the position, but from what could be learned his successor is known.  
Mrs. J. C. Thompson, accompanied by her daughter, Miss Charlotte, and her sons, Donald and Malcomb, returned this morning from Colorado Springs where they have been for six months. Mrs. Thompson's many friends will be delighted to learn that she comes home completely recovered.

**A New State Proposed.**  
"There is a strong sentiment in our part of the state for a division of California, so as to give southern California separate statehood," said J. N. Hazard of Los Angeles at Willard's, Washington, the other day. "This desire arises from no friction or jealousies between the two ends of the commonwealth, and least of all is it based on any scheme to give the politicians additional spoils from the public crib. It isn't political greed or the outgrowth of ill feeling, but arises purely from economic necessities. In the southern part we feel the need of a state government of our own. We have in reality but little in common with the northern end. Our interests are quite as distinct from that section as they are from Oregon, and we are financially and industrially as independent as Oregon. We also have a new population that is as distinct from the population of northern California as it is from New York. For these and other reasons we aspire to statehood. There is plenty of territory for two prosperous and powerful states, and I think the division is certain to come about."—New York Tribune.

**To Alter the Shape of a Head.**  
Siegfried Reubel, a dentist of Williamsburg, N. Y., was held in \$1,000 bail the other day in the Lee avenue police court on a charge of illegally practicing medicine. Peter Feinglass, a dealer in secondhand clothing, charges that Reubel prescribed for his daughter, Annie Feinglass, who is blind. Feinglass says that Reubel told him the girl had a tumor on the brain and that she must have an iron band placed around her head, so that the shape of the head could be changed. Mr. Feinglass said: "I got the band, which cost \$6 and weighed three pounds. Reubel put on the band and screwed it to the sides of her head. For more than a day my child suffered the most intense agony, and then I compelled Reubel to take off the band. My child's head shows the marks of the screws, and she has never been the same since the band was put on her. Afterward Reubel had the audacity to demand \$25 for his services."

**PERSONAL MENTION.**  
—J. D. McCoy left this morning for Alliance.  
—Mrs. D. McDonald spent the day in Pittsburg.  
—Prof. Albert K. Nowling left for a few days' stay in Beaver Falls this morning.

**Much Better.**  
Mrs. George Goodwin, who was ill in Cleveland, returned home last evening accompanied by her daughter, Miss Helen Fisher, and Miss Bunting. She is much improved.

# The .... Dingley Bill

Will Not Affect the Price of Clothing With Us this Season. Many Merchants Say It Will.

## GOODS HAVE GONE UP

FROM 5 TO 20 PER CT.

Yes, we know this; but we did not wait until the last moment. We placed our orders in the month of June and first part of July. Since then wool has advanced. Mills have advanced the price of piece goods, consequently the price has gone up.

## The Early Buyers.

This season has been profitable to many merchants. They have bought goods for less money, and as long as they last we shall not advance the price. We bought to increase our business this fall. Our Ready to Wear Clothing we carry a finer line of goods this season than ever, making and trimmings far superior. Ready Made Clothing the advancement can't help but see, stylish and up to date goods. Just one-half what merchant tailors charge you.

## Men's Fall Suits

WE ARE SELLING THIS SEASON AT

**\$5, \$6, \$7, \$8, \$9, \$10, \$12.**

Miss Gertrude Stoddard has taken a position as typewriter and stenographer in the office of the Standard, Wells-ville.

Reptile, the fast horse, owned by Doc McFarland in the 2:40 trot at Salem, yesterday, took fourth place in every heat.

The executive committee of Spring Grove campground will meet this evening and make arrangements for next season.

Street car No 5 blew out a fuse while coming up the Washington street hill. Pushing a heavy load of ties on a flat car was the cause.

Sunday, Sept. 19, will be observed as building fund day at the Christian church. All monies received on that day will be added to the new church fund.

E. D. Marshall this morning commenced a forcible detention action against Phillip Rau, the East End saloonist. The case will be heard tomorrow morning.

Heckathorn, McCurran and Albright left this morning for Lisbon, where they will play ball today and tomorrow. The Lisbon team is now composed of seven Liverpool players.

A number of the friends of Mr. and Mrs. S. G. Hard last evening called at their home in Jackson street to help them celebrate their forty-ninth anniversary. A very pleasant evening was spent.

Clerk Hanley has heard nothing from the McClurg Gas Construction company since the passage of the ordinance, and it is not known whether the concern will accept the franchise. It has until Sept. 24 to decide.

The water works trustees will not meet this evening owing to the fact that it is impossible for some of the members to be present. The meeting will be held next Friday evening.

The parties who participated in the fight at Columbian park on Labor day will probably all be called to account, as some of the special officers have signified their intention of entering charges against the offenders.

The child of Mr. and Mrs. Joseph Webb, who has been so dangerously ill with diphtheria, has almost entirely recovered. The case was one of the worst ever seen in the city, and a silver tube was inserted in the throat of the child and antitoxine administered.

The receipt books stolen from the office of Robert Moore at the foot of Second street Wednesday evening, while the owner was working with his boats at the wharf, were returned last night between 10 and 11 o'clock. The parties who took them are unknown.

A flat of coal owned by a local dealer while coming down the river, last night, ran aground near Georgetown. The owner and several other men will go there tonight, and it is expected to have it floated within a few hours. The flat is stuck in the channel.

The committee, who are obtaining the views of the property owners along Tanyard run in regard to the proposed sewer, have almost completed their work, and if it is possible to complete their report before next Tuesday evening, a special meeting of council will be called to consider the subject.

Second Lieutenant Johnson, of Company E, has resigned. Captain Hill received the resignation this morning, and in it Johnson says ill health is the cause of his wanting out of the company. There are a number of aspirants for the position, but from what could be learned his successor is known.

Mrs. J. C. Thompson, accompanied by her daughter, Miss Charlotte, and her sons, Donald and Malcomb, returned this morning from Colorado Springs where they have been for six months. Mrs. Thompson's many friends will be delighted to learn that she comes home completely recovered.

A New State Proposed.

"There is a strong sentiment in our part of the state for a division of California, so as to give southern California separate statehood," said J. N. Hazard of Los Angeles at Willard's, Washington, the other day. "This desire arises from no friction or jealousies between the two ends of the commonwealth, and least of all is it based on any scheme to give the politicians additional spoils from the public crib. It isn't political greed or the outgrowth of ill feeling, but arises purely from economic necessities. In the southern part we feel the need of a state government of our own. We have in reality but little in common with the northern end. Our interests are quite as distinct from that section as they are from Oregon, and we are financially and industrially as independent as Oregon. We also have a new population that is as distinct from the population of northern California as it is from New York. For these and other reasons we aspire to statehood. There is plenty of territory for two prosperous and powerful states, and I think the division is certain to come about."—New York Tribune.

To Alter the Shape of a Head.

Siegfried Reubel, a dentist of Williamsburg, N. Y., was held in \$1,000 bail the other day in the Lee avenue police court on a charge of illegally practicing medicine. Peter Feinglass, a dealer in secondhand clothing, charges that Reubel prescribed for his daughter, Annie Feinglass, who is blind. Feinglass says that Reubel told him the girl had a tumor on the brain and that she must have an iron band placed around her head, so that the shape of the head could be changed. Mr. Feinglass said: "I got the band, which cost \$6 and weighed three pounds. Reubel put on the band and screwed it to the sides of her head. For more than a day my child suffered the most intense agony, and then I compelled Reubel to take off the band. My child's head shows the marks of the screws, and she has never been the same since the band was put on her. Afterward Reubel had the audacity to demand \$25 for his services."

# The..... Dingley Bill

Will Not Affect the Price of Clothing With Us this Season. Many Merchants Say It Will.

## GOODS HAVE GONE UP

FROM 5 TO 20 PER CT.

Yes, we know this; but we did not wait until the last moment. We placed our orders in the month of June and first part of July. Since then wool has advanced. Mills have advanced the price of piece goods, consequently the price has gone up.

## The Early Buyers.

This season has been profitable to many merchants. They have bought goods for less money, and as long as they last we shall not advance the price. We bought to increase our business this fall. Our Ready to Wear Clothing we carry a finer line of goods this season than ever, making and trimmings far superior. Ready Made Clothing the advancement can't help but see, stylish and up to date goods. Just one-half what merchant tailors charge you.

## Men's Fall Suits

WE ARE SELLING THIS SEASON AT

\$5, \$6, \$7, \$8, \$9, \$10, \$12.

## ... Wilson Bill

Prices, lowest prices ever known in the history of any clothing buyers, either merchant or consumer. Come, see and learn. You will study your pocket book where your money will buy the most.

## Joseph Bros.

Our Merchant Tailoring department now is ready. Over 2,000 styles to select from. Suits made to order from \$12 to \$50. From \$13 to \$22, Tailor Made Suits are the talk of the town. Notice our show window.

## Our Engraving Plan

has planned out well for the month of July. Our customers were pleased and so were we. So we will continue to engrave your watches free of charge when repairing them. It's a good idea to have your name
